

Topic / client: Michigan State Swing Society

Description: The State Swing Society is a registered student organization (RSO) here at MSU. Their goal is the practice and celebration of traditional vernacular jazz dances such as the Charleston and the Lindy Hop. The website is in serious need of an update (<https://www.msu.edu/~swingers/>). It should incorporate a calendar of local and regional dance events, information on weekly lessons, and links to similar swing dance groups in the region. It should also have directions to the current meeting place, as well as information (either in-line or links) about swinging jazz music and vernacular jazz dance in general.
